We're introducing a few more fun and educational titles from our collection of "FUN AND EDUCATIONAL" titles at A 2 Z Press. David R Morgan is an educator and award-winning writer who has created the four delightful titles we want to present this week.

One of the talents of a great educator and writer is to present material to young readers they find engaging and don't even realize they're learning more than they ever imagined they could. This week, we're featuring '*Crabs Are InCRABable!*, Deep Sea Dazzlers, Eelectrifying Eels, and Sensational Squids and Outstanding Octopuses!'

These delightful stories are educational and entertaining children's stories that are clever - they educate, help with reading skills and are great fun for children of all ages. Come see the stories!

CRABS ARE INCRABABLE

BY DAVID R MORGAN

Crabs Are InCRABable! Is a delightful and funny little story about the crabs we find down under the sea!

Why does the ocean roar
and shake its white head?

Well, wouldn't we all if
we had crabs in our bed?

But don't you worry;
I have a really strong hunch,

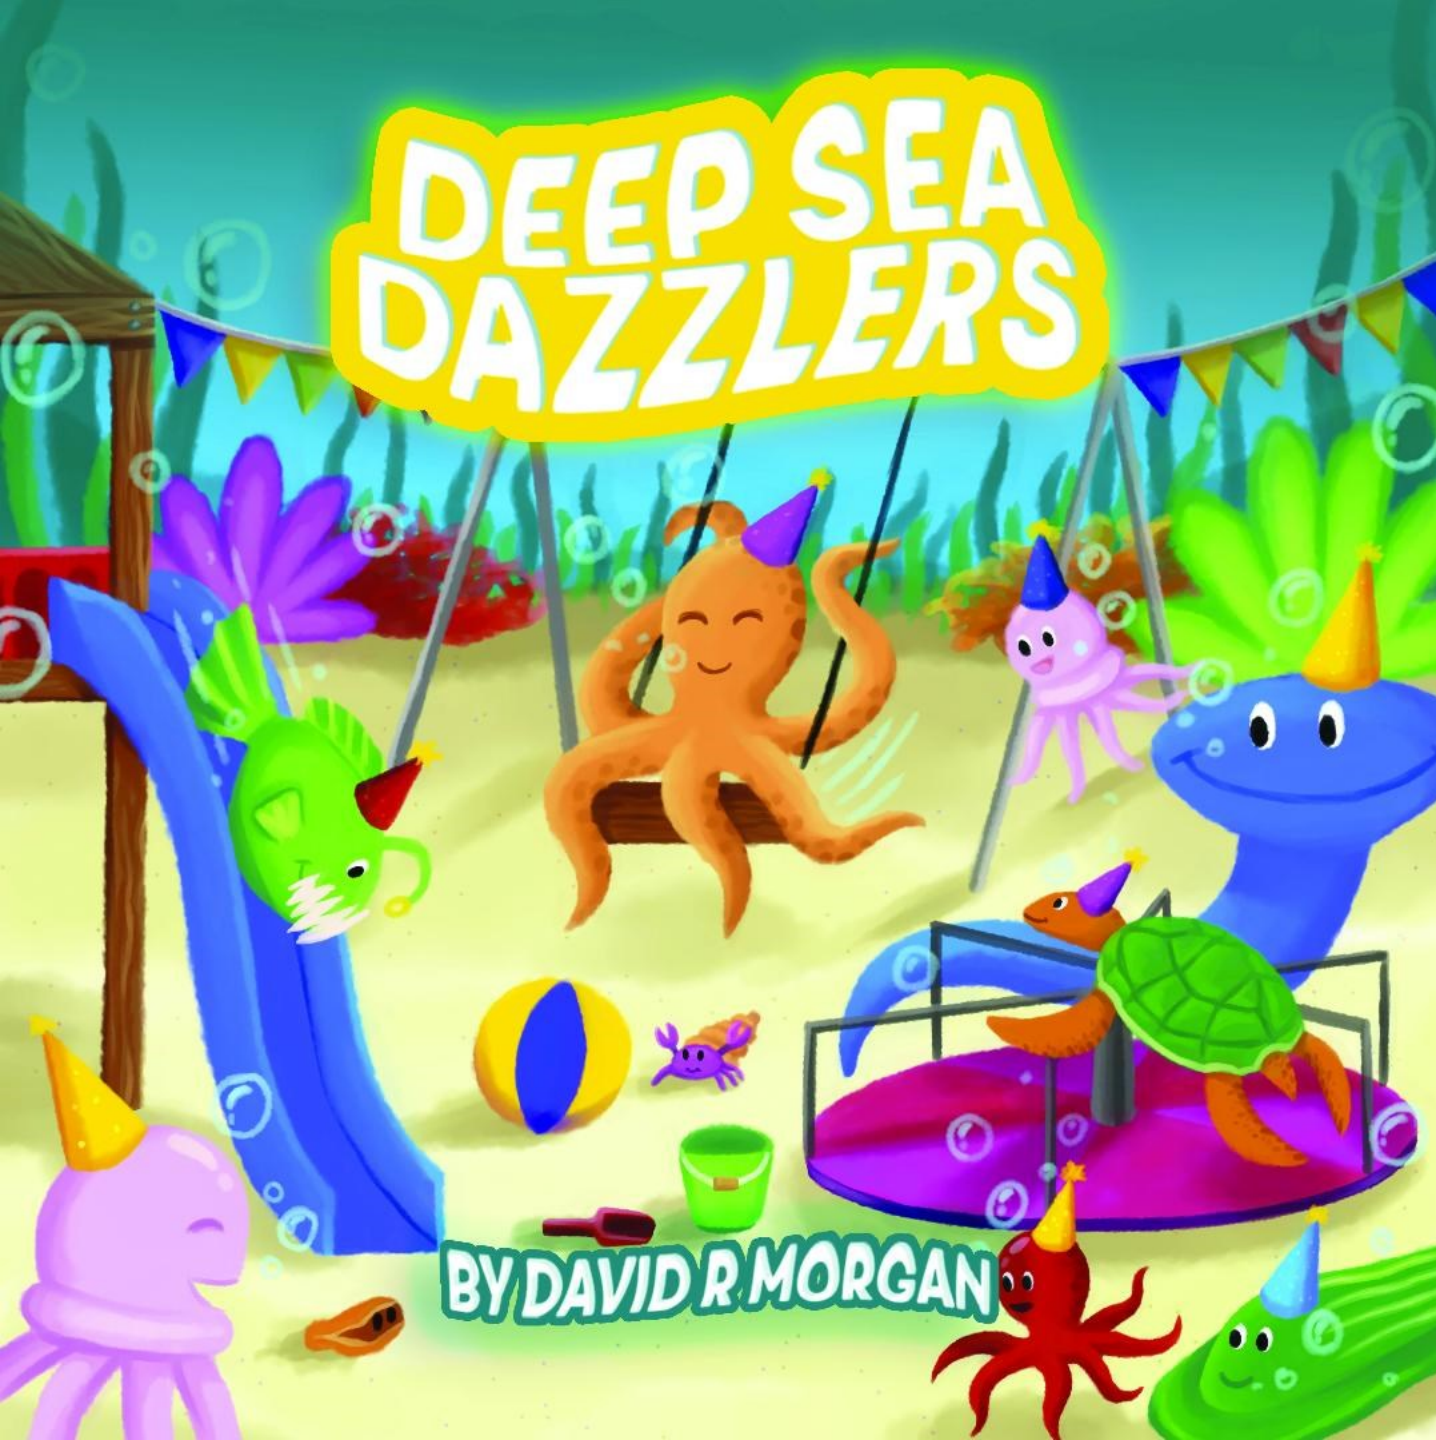

That we'll all find our fun
crabs a truly jolly bunch.

Crabs are 'decapods' from
the crustacean family,
Deco means ten –
they have TEN
legs you can see,

Come, see all the other fun
facts about CRABS

Deep Sea Dazzlers takes the young reader to all areas under the sea! All the way to the Midnight Zone for the youngsters to see glow-in-the-dark sea creatures and more!

Come take a deep, deep
dive with me,
Into the deepest depths of
the bluest sea.

Amazing things we will explore,
In the Midnight Zone
of the ocean floor.

Of all the world's incredibly
strange sights,

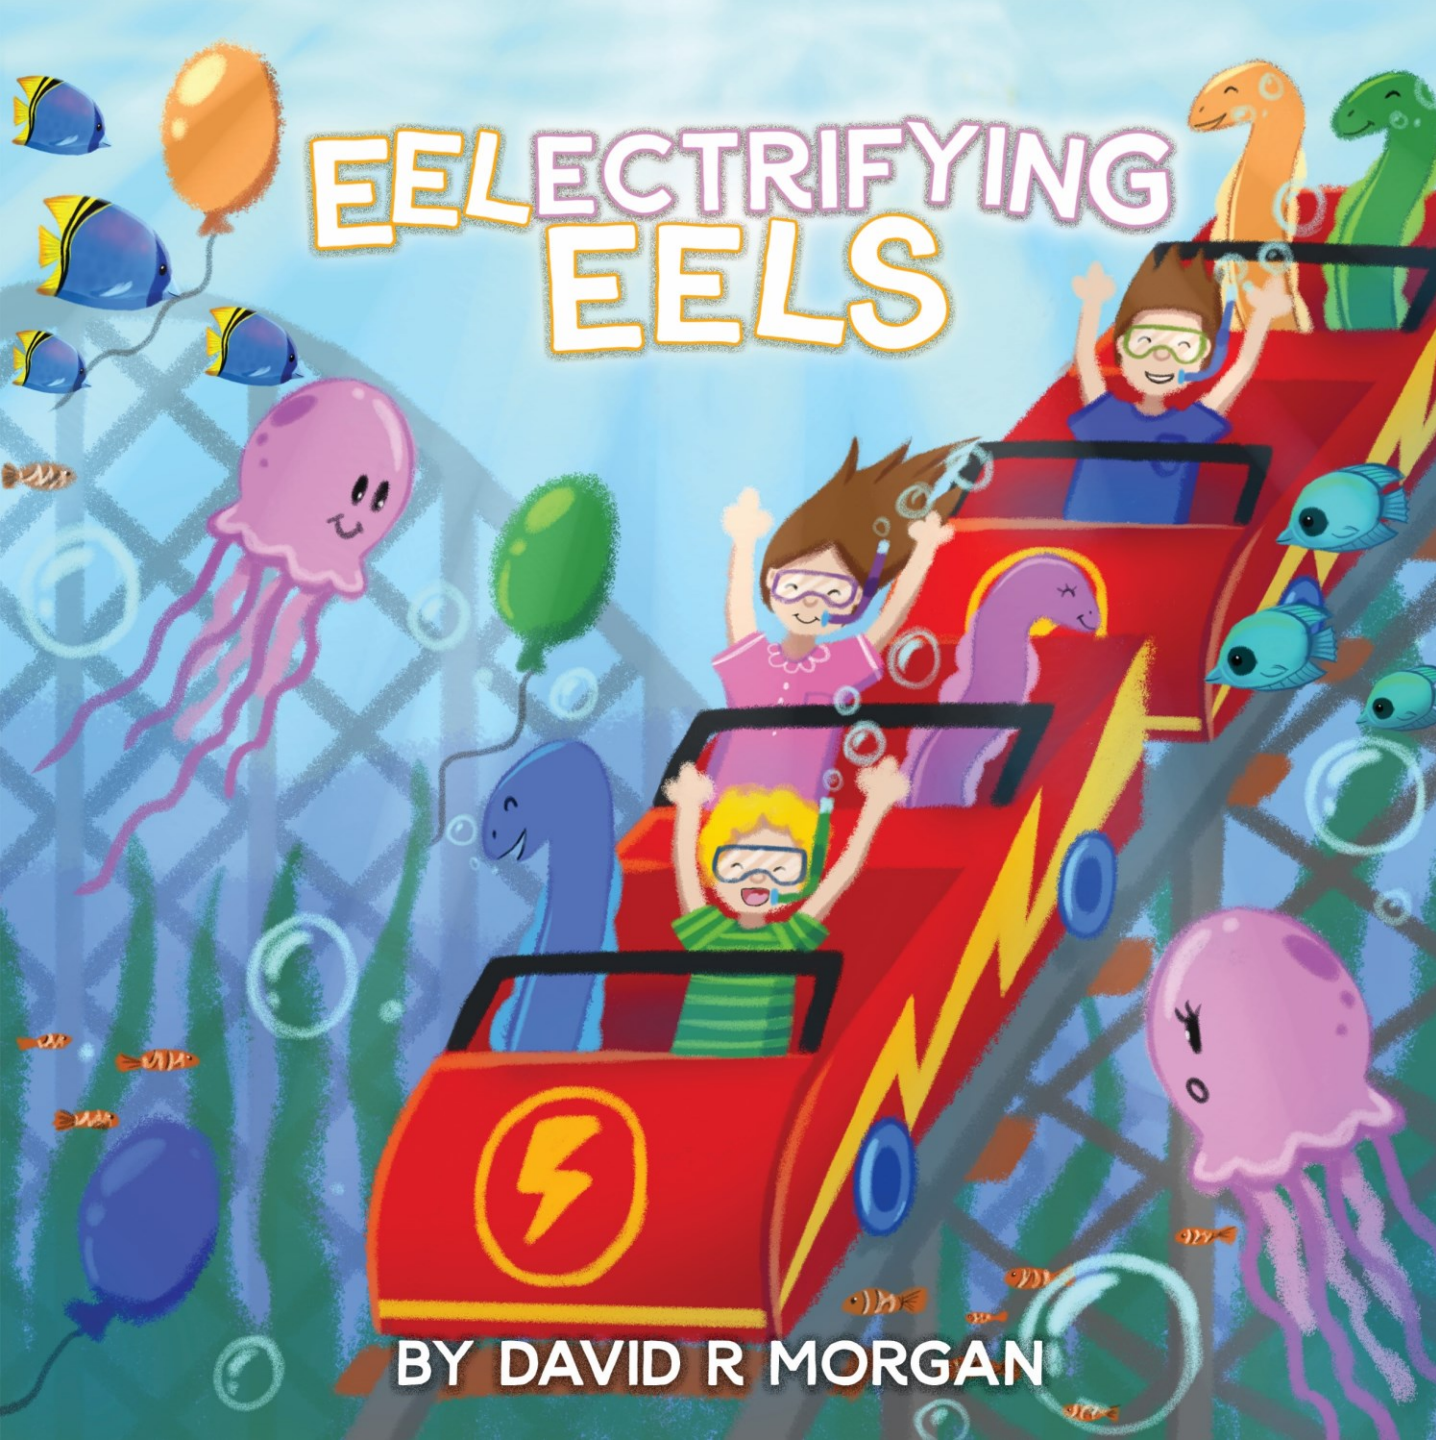

None are as amazing as
the Deep-Sea Delights!

So many live in the
Mariana Trench seven
miles down and swim
that ocean alley,
So deep that Mount
Everest would
be sunk out of sight
in its valley.

Who ever thought EELS
could be so much fun?
Come, see how Eelectrifying
and educational
they can be !

If you could see what
the Sea reveals,

**You would find so many
electrifying eels!**

Eels may look like an
ocean snake,
But they are fish - so don't
make that mistake!

Going for their '*walkies*' in their
dreams and ocean shadows,
This is how the myth of the
eel and mermaid goes.

With Over 400 species -
some tiny, some long as
16 feet - what a sight!

SENSATIONAL SQUIDS AND OUTSTANDING OCTOPUSES

BY DAVID R MORGAN

The Squids and
Octopuses are HERE!
Having fun, sharing fun
facts about themselves,
and delving deeply
under the sea!

There are so many
fun facts about
the squids and
octopuses we
find deep under
the sea.

Tickle a squid and I think,
You will get covered in sticky ink!

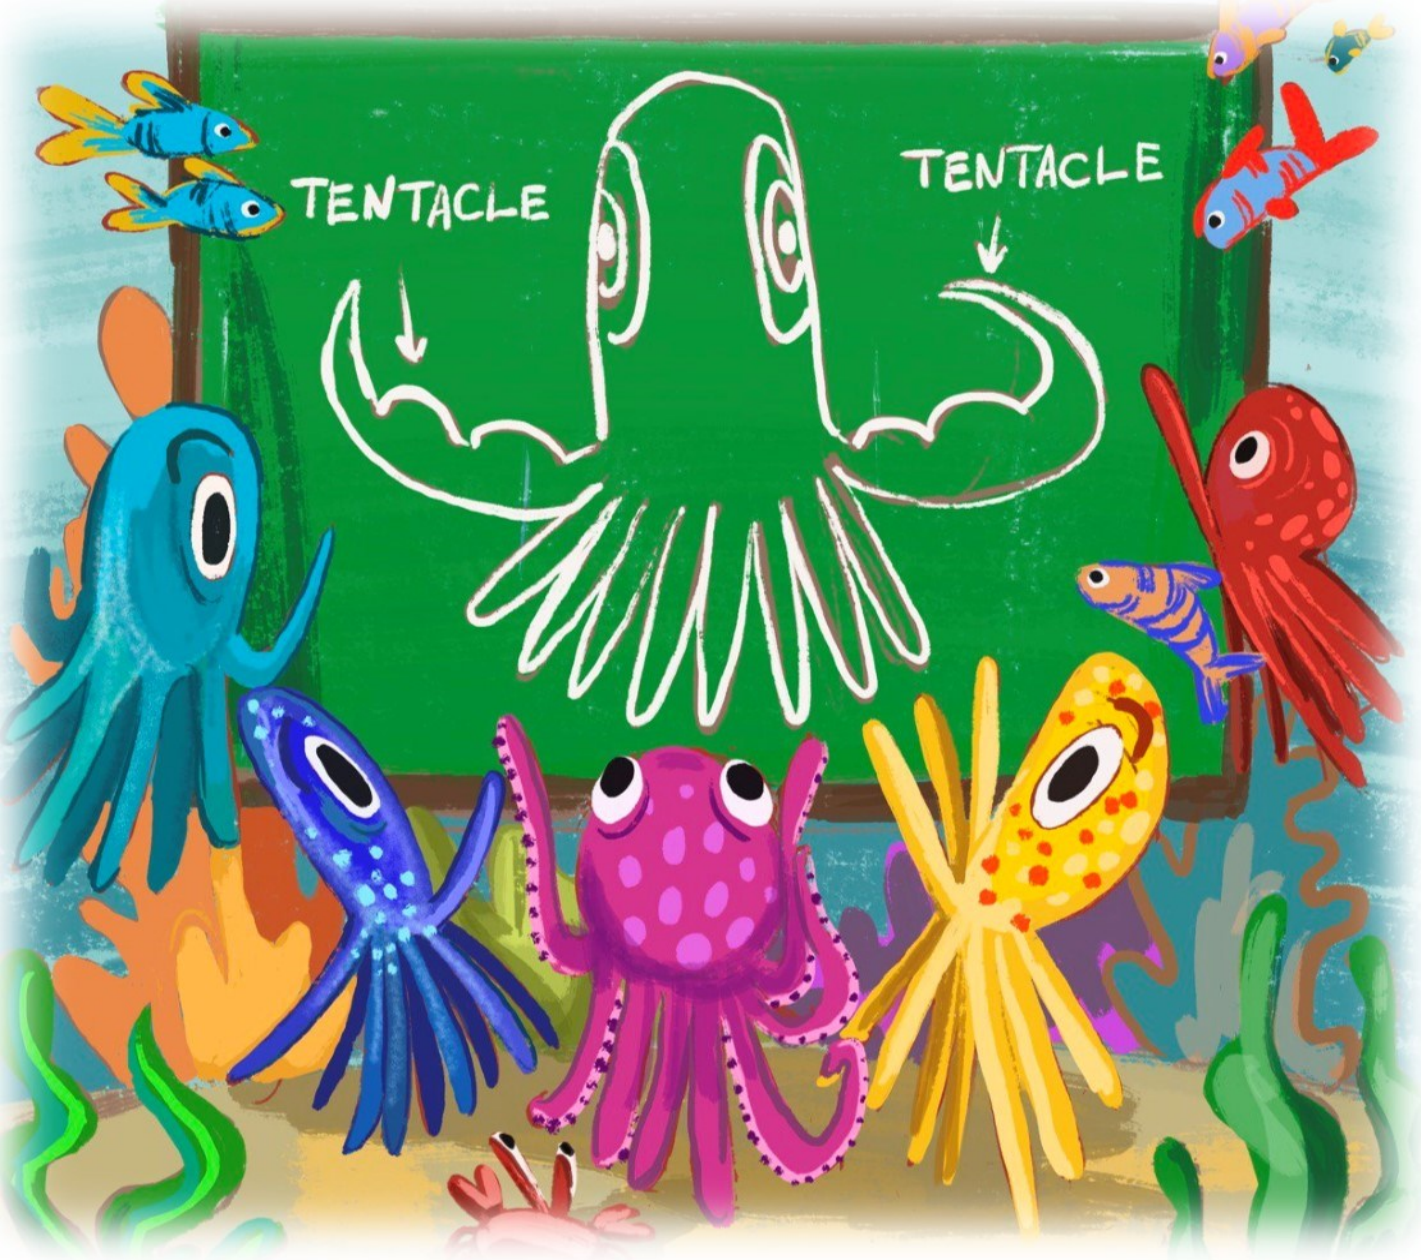

They're having fun and showing all the different fish that are also under the sea with the squids and octopuses...

The Cephalopod Octopus likes to play,
With little fish that come its way.

In science, we learn about their place in our world.

Octopuses only have eight arms, while squids have ten,

And fun facts
about them all!

Two of which are long tentacles for them.

This is a great little
story book for all
young libraries for
sure! Come see.

You know that octopuses really like to play,
In their salty gardens, where sea grasses sway.

David R Morgan lives in England. He is a talented full-time teacher and award-winning author.

He has written music journalism, poetry and children's books. David has created over fifty children's picture books that are not only filled with colorful and darling illustrations to engage the young reader, each is entertaining and educational as well!
